CONDITIONS:

(I) THE FOLLOWING CONDITIONS OF PWD VIDE THE CE,WRD,CHENNAI REGION, CHEPAUK, CHENNAI -5. LETTER NO.DB / T5(3) / F - 2141 / INUNDATION - THIRUNINRAVUR - B / 2022 / DATED: 26.04.2022, ARE TO BE COMPLIED BY THE APPLICANT BEFORE ISSUING OF THE LAYOUT APPROVAL BY THE COMPETENT AUTHORITY (LOCAL BODY)

1.The applicant's land should be filled with earth with proper compaction to the level of (+)30.550m to protect the site from inundation during floods. The process of earth filling and compaction should be done in layers of not more than 0.30m depth to achieve the required degree of compaction for an average filling varying from 1.50m to 1.80m depending upon the existing field levels and the existing applicant land should be raised to a level of (+)30.550m (i.e.0.64m above the sill level of Thiuniravur tank sluice No. 2 as (+)29. 910m). The all round entire pavement level within the site should not be less than (+)30.550m.

2.The applicant should prepare the layout proposal by considering the suitable internal storm water drainage network of suitable size (peripheral & lateral) rainwater harvesting, roads with road side drain and sewerage alignment and its disposal & garbages/debris and other solid waste management as per norms in existence within the applicant's land according to the existing rules in force and should get proper approval from the competent authority without fail.

The sewage or any unhygienic drainage (treated or untreated) should not be let into the drain/channel course at any cost and the debris and other materials should not be dumped into the drain/surplus course obstructing free flow of water. The applicant should make drain networks at his own cost and the same is to be connected to the natural storm water drainage or channel.

3.The channel in S.F.No. 438/1 & 439/1 along the boundary of applicant's land should be completely desilted and resectioned by constructing retaining wall on either side of the channel as per the FMB at the applicant's own cost. The bed level of the above channel should be ascertained and restored before commencing the development activity in the presence of the concerned WRD Executive Engineer. Moreover the width of entire field channel as per Revenue records (FMB) along & within the stretch of applicant's land should be maintained properly without any change and without encroachments.

4.The Government field channel stretch abutting the applicant boundary S.F.No.438/1 & 439/1 should be marked as per FMB and monitored and maintained by the applicant at his own cost. The width of the channel should be maintained without encroachments as per Revenue records and the hydraulic parameters of the field channel should be maintained. The applicant should make necessary periodical arrangements for free flow of water through the existing channel to the downside area within the proposed layout site. Also, the applicant should de-silt the channel periodically and remove the obstruction then and there without any hindrance for free flow of water at his own cost within the proposed land, after the completion of project.

5.The applicant should clearly demarcate his boundary especially on the Eastern side abutting the channel (S.F.No.438/1 & 439/1) and Kuttai in S.F.No. 441/1 before the commencement of any developmental activities in presence of Revenue authorities and WRD authorities concerned without fail and should not encroach the channel and Kuttai abutting the land. The applicant should also maintain the measurement of the kuttai & channel on the Western & Eastern sides without any encroachments and should be maintained as per Revenue records (FMB). If any damages occurred to the channel, the same should be restored to its original condition at his own cost.

6.The necessary setback distance within the proposed site should be provided within the site as per the norms in existence and as per the rules in force of CMDA (Circular issued by the office of the Commissioner of Town & Country Planning Chennai - 2 vide Roc. No. 4367 / 2019-BA2 / 13.03.2019) especially on Eastern side & Western side during development and there should not be any construction. The CMDA should issue completion certificate only after obtaining compliance certificate NOC from WRD.

7.The applicant should not carry out any other cross masonry structures across the channels without prior permission from WRD.

8.The permission granted to the applicant should not be altered/modified/ changed to any others. Based on the records submitted by the applicant, the permission is granted. If any documents seem to be fake/manipulated/fabricated, in future the above permission will be cancelled without any correspondence. Hence, the applicant is solely responsible of genuinity of the documents submitted.

9.The WRD officers should be allowed to inspect the site at any time, during execution and thereafter. Advance intimation should be given to the WRD officers concerned before commencement of work.

10.The applicant should abide by the rules and regulation of the WRD from time to time. The applicant should also abide court of law of both State & Central Government from time to time.

11. The applicant should get clearance certificate for his site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries.

12.WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicant to encroach the WRD / Government Lands. The NoC for his site from the WRD is purely issued on the basis of inundation point of view.

13.The sewage water from the applicant's land should not let into the channel or drain and for the disposal of the sewage water, suitable arrangements show of made for the same by the applicant, and as well as the construction materials/debris/garbages should not be dumped into the channel at any cost.

The applicant should not dump the garbages/debris in the channel and avoid the sewage water into the channel, etc. At any cost, sewage/sullage should not be let into field channel, and the garbages, debris and construction materials should not be dumped into the channel restricting the free flow of water.

14.The applicant should not object at any time for the maintenance work / improvements work of the channel to be carried out by WRD. The applicant should give an undertaking in writing to the effect that the above proposal will not obstruct in case any maintenance/improvement/development works as per Revenue records [FMB] which are to be carried out by WRD in future periodically.

The owner of the document received from the applicant in respect to the ownership is purely of applicant responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development / Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land.

Failing to comply with any of the above conditions, WRD reserves rights to withdraw the Technical opinion with NOC on Inundation point of view to the above proposed site and in event the applicant shall not be eligible for any compensation what so ever and as well as legal entity.

(II) TNCDBR-2019 RULE NO: 47 (8) IN G.O.(Ms) No.18, MAWS DEPARTMENT DATED 04.02.2019 & AMENDMENTS APPROVED IN G.O.Ms.No.16, MAWS (MAI) DEPARTMENT DATED 31.01.2020 AND PUBLISHED IN TNGG ISSUE No.41.DATED 31.01.2020
